

Siyun Zheng

Product Designer | Interaction Design | Creative Technology

London, UK | +44 7818879099 | xiaomicom3@gmail.com

Portfolio | www.linkedin.com/in/siyun-zheng-32539033a

UK Graduate Visa holder – full right to work in the UK; available immediately

PROFILE

Multidisciplinary Product Designer with a BFA in Product Design from the Central Academy of Fine Arts and an MSc in Creative Robotics from University of the Arts London. Combines human-centred design, visual communication, physical computing and iterative prototyping to create expressive products and interactive experiences. Experienced in taking concepts from research and interaction flows through electronics, fabrication and presentation-ready prototypes.

EDUCATION

University of the Arts London, Creative Computing Institute

London, UK

MSc Creative Robotics

Sept 2024 – Jan 2026

Focus: interaction design, human-robot interaction, physical computing, creative coding and prototyping.

Central Academy of Fine Arts

Beijing, China

BA Product Design

Sept 2020 – Jun 2024

CAFA Outstanding Graduate (2024); Second-Class Scholarship (2023).

CORE SKILLS

- **Product & Interaction Design:** Design research, concept development, ideation, sketching, storyboarding, user journeys, interaction flows, prototyping, usability testing, design presentation
- **Visual & Digital:** Adobe Illustrator, Photoshop, InDesign, TouchDesigner, information design, editorial design, visual identity
- **Physical Prototyping:** Arduino, sensors, stepper motors, basic electronics, physical computing, mechanism development, textile and mixed-material prototyping
- **Technical & Languages:** Python, creative coding; Mandarin Chinese (Native), English (Professional working proficiency)

DESIGN EXPERIENCE

Anhui Chery Intelligent Technology Co., Ltd.

China

Visual Identity Design Contributor – Project-based

Aug 2025 – Sept 2025

- Contributed to logo concept development and vector refinement for a technology-focused corporate identity, producing clear design alternatives and presentation-ready visuals for the project team.

Touring / Reconstruction Publication

Beijing, China

Chief Editor & Book Designer

2023 – 2024

- Led the editorial and visual design of an approximately 600-page publication structured across 5 chapters and featuring work from nearly 50 artists.
- Built a consistent content hierarchy, grid, typography and image system, coordinating large volumes of text and artwork into a coherent print-ready outcome.

SELECTED PROJECTS

Extra Vertebra – Wearable Robotic Product

UAL, 2025

- Designed and fabricated a full-scale wearable robotic appendage exploring non-verbal emotional expression and the symbiotic relationship between AI and the human body.
- Engineered a three-actuator system using Arduino, 28BYJ-48 stepper motors, ULN2003 drivers and sound sensing, mapping input thresholds to slow, fast and intense movement modes.
- Iterated a logarithmic-spiral vertebral structure, cable-driven mechanics and Canadian-smocking textile skin to balance motion, weight and visual coherence.

Echoes of the Heart Sea – Interactive Wellbeing Installation

CAFA, 2024

- Led the end-to-end design of a large-scale multisensory installation that translated research on adolescent emotional wellbeing into an approachable spatial experience.
- Integrated Muse EEG, microphone input, TouchDesigner/OSC, Arduino and multiple LED displays; mapped five brainwave bands to responsive visual and lighting outputs.
- Developed the interaction flow, real-time and demonstration modes, spatial layout, visual identity and bilingual exhibition communication for the final presentation.

ADDITIONAL ACHIEVEMENT

Award Recipient, Nine Cards 48-hour Board Game Design Competition

2023
